

perennial ryegrass

CITATION FORE

THE FOUNDATION OF EXCELLENCE

A research first approach of perfecting turfgrass performance.

Variety information

Description:

Citation Fore is the latest addition to 25 years of breeding the Citation varieties. After many years on the market, the demand for Citation Fore in the U.S. and Europe proves its performance.

Applications:

Citation Fore will perform in any application that requires perennial ryegrass. Good overall disease resistance and good performance for many traits like traffic, light shade and high endophyte make Citation Fore a great choice for home lawns or in mixes and blends for commercial applications. Citation Fore transitions well in over-seeding situations.

Geographical Adaption:

Citation Fore is well adapted throughout the cool-season turfgrass zones and the northern areas of the transition zone. It is well suited for a range of soil types, pH range of 5.5 to 8.0. When fall over-seeding dormant residential, commercial or sports turf, seeding rates of 10 lbs. per 1000 sq. ft. are recommended. For new seeding of residential or commercial turf 7-10 per 1000 sq. ft. (294-490 kg./ha) is recommended in the early fall and spring. Germinates in 7-12 days with optimal soil temperatures around blishment.

PRODUCT FEATURES

Heat Tolerance	● ● ● ● ●
Color	● ● ● ● ●
Traffic Tolerance	● ● ● ● ●
Dollar Spot	● ● ● ● ●
Gray Leaf Spot	● ● ● ● ●
Seeding Rate	7-10 lbs /1000sq. ft (294-490 kg/ha)
