

Tall Fescue

# ENDEAVOR II

## THE FOUNDATION OF EXCELLENCE

A research first approach of perfecting turfgrass performance.

### Variety information

**Description:**

Endeavor II tall fescue was developed by Pure-Seed Testing, Inc. Endeavor II has outstanding brown patch resistance, heat tolerance, and wear tolerance. Endeavor II is a bright, medium green tall fescue with a dense, upright growth habit. Endeavor II has good tolerance to drought, net blotch, stem rust, and white grubs.

**Applications:**

Endeavor II's excellent summer turf performance makes it a good choice for lawns and low-maintenance turfs, especially in the Transition Zone. Endeavor II is adapted for golf course roughs, commercial landscapes, sod production, road sides, slope stabilization, parks, and cemeteries. Endeavor II performs well in sun or shade.

**Geographical Adaption:**

Endeavor II performs well in the Transition Zone and temperate climates. It is adapted to a wide range of soil types and pH. Recommended seeding rate is 5-8 lb/1000 ft<sup>2</sup> (245-390 kg/ha). Fertilize at 3-5 lb N/1000 ft<sup>2</sup>/yr (145-245 kg/ha); mow at 1.5-3.0" (4-8 cm); irrigate deeply and infrequently.

**PRODUCT FEATURES**
