

# VIVAX™ TABS

## SOIL SURFACTANT TABLET

Golf course superintendents work hard to provide great playing surfaces for their customers. Managing water in the root zone is important to their efforts and sometimes a cool-down is all that is needed. VIVAX™ Tabs are a combination of four surfactant technologies, in an easy to use tablet, designed to manage water across a wide range of soil and turf types. It is ideal for spot applications on golf courses and athletic fields.

### WHAT MAKES IT BETTER:

- Manages water across a wide range of soils and turf types
- Effective in programs that increase microbial populations
- Moves irrigation or rainwater off the playing surface and throughout the soil

### FEATURES AND BENEFITS:

- Contains four surfactant technologies – effective across a wide range of conditions
- Reduces surface tension – less run-off and wasted water
- Provides greater soil solubility – improved turf quality and irrigation efficiency
- Resists microbial breakdown – ideal for use in programs that increase soil microbial populations
- 6-ounce tablet – easy to apply using most hose end applicators

### USE RATES

- One 6-ounce (170 gram) tablet treats 12,000 to 18,000 sq. ft. Coverage may be affected by water temperature, water pressure and application technique

### PACKAGING

- 24 – 6-ounce VIVAX Tabs per case

### APPLICATION INTERVAL:

- Apply VIVAX Tabs based on turf stress or the presence of localized dry spot (LDS)
